EXPERIENCE

Scribd Inc, Denver, CO—*Software Engineer*

August 2022 - December 2023

- Transitioned front end functionality from jQuery to React, while also implementing AB testing.
- Created user-friendly web interfaces utilizing React frontend and Ruby backend seamlessly connected through GraphQL.
- Introduced advertisements to optimize company revenue and enhance user involvement.

Nacelle Inc, Denver, CO—*Software Engineer*

August 2021 - June 2022

- Developed a front end dashboard application utilizing Vue.js, Vuex, and GraphQL APIs to enable clients to seamlessly integrate their Shopify and Contentful accounts.
- Collaborated closely with visual designers to integrate their designs into fully functional web applications.
- Created a feature flag system utilizing LaunchDarkly in order to facilitate CI/CD and effectively manage feature accessibility based on clients' subscription status.

Promontory MortgagePath, Denver, CO—*Front End Engineer*

April 2020 - August 2021

- Successfully upgraded infrastructure from AngularJS to Angular 8
- Developed a user-friendly interface for bank employees and mortgage applicants using Angular 8 and Angular Material
- Integrated the user interface with REST APIs and GraphQL, ensuring compliance with ADA regulations and local laws.

Dire Wolf Digital, Denver, CO— *Web and Tools Engineer*

November 2017 - April 2020

- Implemented mobile responsiveness for the company website and online merchandise store using Vue.js, jQuery, PHP, Bootstrap, REST APIs, and SQL databases.
- Developed a testing application to facilitate progress tracking for QA testers, utilizing Vue.js, Gulp.js, Jenkins, and MongoDB.
- Devised a streamlined process for other departments to generate dynamic content, eliminating the need for offline maintenance.
